

EDUCATION

Multimedia University of Kenya
BSc Electrical and Telecommunications Engineering
2020 – 2025
2nd Class Honours
Maranda High School
Certificate of Secondary Education
AGP A-
2016 – 2019
Chemweno Tophill
Certificate of Primary Education
393 Marks
2007 – 2015

SKILLS

- Full-Stack Development
- Embedded Systems
- Machine Learning & AI
- Graphic Design
- Electrical Systems

LEADERSHIP

Chairperson – MMU Engineering Students Association (MUKESA)
2023 – 2024
Spearheaded career fairs, Arduino workshops, and industry visits promoting student innovation and skills development.

PROFILE

Passionate Electrical and Telecommunications Engineer with a strong foundation in full-stack development, embedded systems, and artificial intelligence. With hands-on experience in both government and private sector projects, I combine technical expertise with a commitment to innovation, problem-solving, and continuous learning.

PROFESSIONAL EXPERIENCE

Management Trainee – Frejed Engineering Services July 2025 – Present

Contributing to electrical, telecom, and project management operations through design reviews, site supervision, and technical reporting, supporting efficient and reliable engineering project delivery.

Electrical Engineering Intern – Nairobi City County, Mobility and Works May 2024 – Aug 2024

Assisted in powerline installations, highway electrical systems maintenance, lift systems servicing, and general electronic systems troubleshooting.

Electrical Engineer Services Assistant – Ministry of Public Works May 4th – July 30th, 2023

Provided engineering support for luminaire and lift installations, developed tender documentation and BOQs, and assisted in supervising infrastructure electrical upgrades.

Teaching Assistant – Koibarak Girls Secondary School Jan – March 2020

Supported mathematics and chemistry instruction, offering tutoring and grading assistance while helping students strengthen academic performance.

HIGHLIGHTS & ACHIEVEMENTS

World Engineering Day Hackathon (2024) - Finalist for AvaQual AI solution tackling food waste through machine learning.

10th Anniversary of Devolution Celebrations (2023) - Selected youth innovator showcasing Smart Traffic AI in Eldoret, Kenya.

IEEE PES General Meeting (2023) – Selected to present on Sustainable Energy Systems, Orlando, USA under the Student Poster Contest Session.

IEEE YESIST12 Hackathon (2023) - Led team “Green Gas” to global finals in Alexandria, Egypt.
